RE: Letter of Appreciation

Dear Paul,

I would like to take this opportunity to say thank you for the great CEI seminar you held in November of 2006. Your teaching skills are to be commended, as the senior D.T. Instructor, an S.R.T. member, and an active reserve Marine. The attention to detail in your explanations throughout the course simplified my understanding of the PFS system. I am always on the look out for any additional training that will give me the edge in any confrontation I may come across in the streets of L.A. I've never really had such enthusiasm and appreciation for such an instructor as yourself.

I am proud to say that the R.A.T. system is now being implemented throughout the District. I recall during our Q&A session that if we ever had any questions or problems to call you...day or night you would do whatever you could to help us. You did just that, I gave you a call late one night and you meant what you said. Once again, thank you for your support and I look forward to our future training sessions. If you ever need anything, day or night please don't hesitate to give me call.

Sincerely,

C. Arzate
